E-Commerce REST API

1.0.0 OAS 3.0

http://127.0.0.1:8000/docs?api-docs.json

RESTful API for an e-commerce application built with Laravel 12.

The API provides:

- Customer registration and authentication using JWT.
- Public product catalog.
- Product administration.
- Order creation and purchase history.
- Stripe payment processing.
- Stripe webhook handling.

Servers

http://localhost:8000 - Local development server
